MISSION:

At Discovery Diving Instructor College (DDIC), the training division of Discovery Diving Company, Inc., our mission is to produce outstanding SCUBA professionals that not only comply with industry standards, but surpass them. Through our two intensive professional programs, the 4-month Divemaster program and the 9-month Instructor program, graduates emerge ready to teach courses, guide students and certified divers, work on dive charter boats, work in a dive shop or resort, and even begin their own business. Our goal is to graduate students with Professional Association of Diving Instructors (PADI) professional rankings that exceed industry standards, creating an instructor that is in high demand worldwide.

HISTORY:

Discovery Diving, Co. Inc. was originally incorporated in 1976. The original store was located in Atlantic Beach. In 1978, the store moved to Front Street in Beaufort, NC. In 1982, the store moved to its current location at 414 Orange St., Beaufort, NC 28516. Discovery Diving, Co. Inc. expanded from a retail store to a retail store, training facility, and small marina. Debby Boyce has been the sole owner of the store since 1980. In approximately 5 year intervals, Discovery Diving, Co. Inc has expanded to include a west and east lodge that can house 20 divers each and the store has expanded twice.

Institutional Name:

Discovery Diving Company, Inc
414 Orange Street
Beaufort, NC, 28516

Governing Body:

Professional Association of Diving Instructors (PADI)
Approved by the NC Community College System as a NC State Vocational School
Approved by the NC State Veterans Administration Office

Officials:

Debora (Debby) Sue Boyce

Faculty:

Debby Boyce – Master Instructor, B.S.
Neil Drysdale – IDC Staff Instructor
Bobby Rawls – Open Water SCUBA Instructor, B.S.
Lee Moore – IDC Staff Instructor, B.A.
Janelle Fleming – Master Scuba Diver Trainer, B.S., M.S., PhD
Calvin Shaw – Master Scuba Diver Trainer, B.S., M.S.
Stephanie Braswell – Open Water SCUBA Instructor
Conrad Rucker – IDC Staff Instructor, B.A.
Bill Thompson – Divemaster, Technician
David Osborne – Manager
Terry Leonard - Captain

Calendar:

Classes are conducted throughout the year and a 2012-2013-2014 schedule is presented at the end of this catalog (pages 61-89). Weekday and weekend classes are available as well as classes on demand. We work with the students to get the classes they need in a timely manner.

2012-2013-2014 Calendar:

We have several Programs: 1) The SCUBA Divemaster Program for Elite Professionals; 2) The SCUBA Instructor Program for Elite Professionals; and 3) The Master SCUBA Diver Trainer for Elite Professionals and all calendars are presented showing beginning and ending dates for each program, all contact dates, and clock hours.

Legal Holiday:

Due to the nature of this profession, we are often conducting classes or dive training trips during holidays. As mentioned above, we work with the students to give them the classes they need in a timely manner and if this fits into a legal holiday for them, then we still work the classes.

DDC is totally closed on Christmas Day for Charters, Classes, Store and Administration. DDC will close at 5pm on Thanksgiving and New Years Eve.

Q/T/S Begin/End Dates:

Program start dates are frequent and we can fit almost anyone's schedule. We have two curriculum programs which ultimately end in either Divemaster or Instructor certificates: a) 5 month/full time SCUBA Divemaster Program for Elite Professionals and b) 9 month/full time SCUBA Instructor Program for Elite Professionals. We also have a Master SCUBA Diver Trainer for Elite Professionals.

Program Dates may be seen on (61-89)

Other:

Instructor programs are more structured and defined as opposed to individual class offerings. We work with our students to fit the required courses into their schedule. We offer classes year round and can offer classes as requested.

Student Information:

What do I need to do before I start my class?

1. Tell all your friends you are taking SCUBA diving course and ask them if they would like to join you.
2. Please read the first three modules of the PADI Open Water Manual and complete the Knowledge Review at the end of each module.
3. Please complete the Medical Form enclosed with your student package, if you answer yes to any of the questions you will need to have a signed medical release form on the first day of class.
4. You will need to provide your own mask, fins, booties, and snorkel. If you would like to schedule an appointment for a personal fitting prior to your first day of class, please give us a call. You may also wait until after the first day of class during which we will give a very important lecture on the proper fit of equipment.
5. We will provide the rest of your SCUBA equipment for your class, pool, and ocean sessions.
6. If you are under 18, a parent or guardian must co-sign your student record.
7. Note class times and date. Promptness is appreciated.
8. Practice putting your face in water in a bathtub, pool, etc. and practice being able to exhale through your nose 2 or 3 times on one breath without lifting your face out of the water.
9. Be able to swim 200 yards continuously.

What is PADI?

PADI- Professional Association of Diving Instructors – is the world’s largest diving training organization, with offices, instructors, and retail dive centers in more than 90 countries. After you are certified, you will receive a PADI Open Water Certification card, recognized all over the world.

Where is the Class Held?

Class: Orientation and lectures are held at Discovery Diving, 414 Orange Street, in Beaufort. Classrooms are located upstairs above the Dive Shop.

Pool: During the summer, we use local pools including Cherry Point Marine Corps Air Station and the New River Air Station.

Ocean: Your Open Water Training Dives are done at Radio Island.

Boat Dives: As part of your Open Water Class, we offer an introduction to wreck diving on one of the fabulous inshore wrecks located just off the coast.

What should I Bring to Class?

1. The PADI Open Water Manual and Dive Tables and if needed a signed medical release form.
2. A bathing suit and towel.
3. Your mask, fins, booties, and snorkel or be prepared to purchase them.

Admission Procedures:

Students interested in any of our Programs need to follow the following Admission Procedures:

1. Check the website for current calendars
2. Call the College (252) 728-2265 to arrange for an interview with a school official (Debby Boyce, Janelle Fleming, or Neil Drysdale)
3. Complete an admissions interview and counseling session which includes explaining the length of the program, the time commitment required during school (22 hours per week and follows a specified calendar), and our expectations of our students (students must be prepared for each individual course module)
4. Collect and turn in your high school transcripts
5. Complete Enrollment Agreement
6. Collect Open Water Manual for the first day of class
7. PADI Medical Statement needs to be complete
8. If students are using their VA Benefits, please see the website for a complete list of details. You will need to complete the VA Form 1990 to apply to the Discovery Diving Open Water to SCUBA Instructor Program.
9. We will work with special needs students as necessary

DDIC does not discriminate on the basis of sex, race, ethnic origin, or religion.

DDIC guarantees the student's right to access their records and release information about an individual student in accordance with the Family Education Rights and Privacy Act (FERPA).

Policy/Regulations – Re: Leave

Absences

Students must attend all class lectures, pool work, and satisfy the course swim evaluations, written exams, and medical forms. If a student is unable to attend a lecture, they will work with the instructors to make up what has been missed.

Class Cuts

As mentioned above, students may miss sections of the course if necessary, but they must work out make up plans for the missed class work and pool work.

Make Up Work

Students work directly with the instructors to make up class work, pool work, and open water dives. If the students are able to join a class already in progress, no additional fees will be added. However, if the student needs to complete the course work with an instructor outside of an offered class, then additional fees may apply.

Tardiness

Tardiness is generally frowned upon, and classes start as scheduled.

Interruptions for Unsatisfactory Attendance

Students will make up the work required for each class. The students will not receive proper certifications until all class, pool and open water work is completed in a timely manner. Students are given up to a year from the initiation of a class to complete the coursework required for that class.

Attendance

DDC is open from 8am until 9 pm seven days a week except for holidays as noted. Students are expected to attend every hour of every course in the program. Daily attendance will be taken and recorded on the attendance sheet. These records will be maintained indefinitely and a digital version will be maintained off site.

1. Leave of Absence or Absence due to Emergencies or Illness constituting more than 5% of the program will require enrollment in the next scheduled session.

2. Unexcused absence – one unexcused absence puts the student on probation. Three or more unexcused absences or 24 hours of unexcused absences will result in unsatisfactory attendance and termination.
3. Excused Absences will be handled on a case by case.
4. Chronic Tardiness, 5 occasions will result in termination.
5. Late arrival or early departure for any part of an hour will be considered one full hour of absence.

At the end of each “reporting period”, student attendance (clock-hours/week) of less than 22 hours for any week, i.e. not maintaining full time, will be reported for the calendar week (s) in question, Sunday through Saturday. This change in training time affects the benefit amount and will result in a reduction and/or loss of benefits (tuition/fees, housing allowance) if the student is using their VA benefits.

MAKEUP WORK

Any class or practical work must be made-up before certification will be attained. All makeup work must be completed within one year or the grade will be recorded as an unsatisfactory.

Policy/Regulations – Re: Enrollment

Enrollment Dates

Students must enroll or sign up for classes at least a week before the class begins. If there are not enough students to make a class, the class will be cancelled.

Specific Entrance Requirements/Courses

The Open Water Class has a swim evaluation consisting of; a) 200 yard swim with any combination of strokes; b) 10 minute float; c) breath hold swim; d) 5 minute tread. Students are also requested to purchase the PADI Open water Manual with tables and to read the first three sections of the text book and complete the reviews at the end of the chapter before the first class meeting. Minimum age for Open Water certification is 15. People 10 to 14 years old receive a Junior Open Water certification. People 8-9 years old may do a Bubblemaker program.

Advanced Open Water requires PADI Open Water Diver certification or equivalent rating. Minimum age for enrollment is 15, or 12 for junior advanced open water. Students must purchase the required manuals and equipment.

The specialty courses require either Open Water certification and/or Advanced Open Water certification and there are certain age requirements.

Rescue Diver Course requires PADI Advanced Open Water diver or equivalent rating. Minimum age for enrollment is 12. Divers must also complete Emergency First response Course or First Aid and CPR within 24 months prior to the start of the class.

Dive Master Course requires PADI Rescue Diver. The minimum age is 18 and a prerequisite of 40 logged dives.

PADI Instructor course requires Dive Master training and/or Assistant Instructor.

All students are expected to purchase the required manuals, read the required manuals, and complete the knowledge reviews before the start of any particular class.

Enrollment

Enrollments will be accepted until the program is full. All water work training is limited to 8 students per Instructor and Classroom sessions are typically less than 16. As of now, we are limiting enrollment to 4 students per calendar session of any program.

Enrollment Agreement:

Contracts for payment of tuition, fees, and all other charges are in the Enrollment Agreement. Payment of tuition and fees is due no later than two weeks prior to the start of the term or at the time of your registration to ensure your spot in the class. Only payment in full finalizes your registration; we call it confirmation.

ENTRANCE REQUIREMENTS

1. The student must be at least 18 years of age or older.
2. Students must be in good physical condition and have a PADI Medical Exam signed by a medical doctor asserting their fitness to dive.
3. Student must be able to pass a nominal swimming test. A 200 yard swim without stopping and a 10 minute float.
4. Students must complete and sign an Enrollment Agreement, a Standard Safe Diving Practices Statement of Understanding and a Liability Release and Assumption of Risk Agreement.
5. Students entering this program without any initial training are required to provide an Official Transcript from all schools attended, including HIGH SCHOOL.
6. Students transferring into the program with previous training are required to provide transcripts from all colleges attended and documentation of previous SCUBA training.
7. Students that are being re-admitted to the program must provide official transcripts from institutions that they have attended while on leave from a program.

CREDIT FOR PREVIOUS EDUCATION AND TRAINING

Students can receive credit for previous certifications and training. VA students must report and document all similar certifications and training to DDC. We accept only PADI certifications that have been completed within the six months. DDC will evaluate the training and grant credit on a case by case basis. If credit is granted, the tuition and duration of training will be reduced accordingly and a written notice of the credit will be supplied to the student, a copy to the VA and a copy will be kept in the student file. Copies of the proof of previous training will be kept in the students file.

TRANSFER CREDIT OUT OF THE PROGRAM

Should a student want to transfer out of our program, we will supply the transferring institution a copy of the student's transcript and will be available to address any questions the transferring institution may have about the student or courses complete.

ACCEPTANCE OF CREDIT IS NOT GUARANTEED AND IS UP TO RECEIVING INSITUATION.

Policy/Regulations – Re: Standards of Progress

Grading System

Students will complete knowledge reviews throughout the course that highlight the important topics covered during the course. Quizzes are used to test the retention of important material and there is a final exam that covers all material covered. All instructors will use the same syllabi and meet the same standards and procedures for evaluating both academics and practical skills to maintain uniformity as dictated by PADI.

The grading is on a 5 point scale. The student must maintain an overall 3 point or higher average except where outside certifying agencies require a higher score.

5=excellent, 4=good, 3=satisfactory, 2= poor, 1=unsatisfactory (unsafe, unprepared, or incorrect)

Written Exams are on a 1-100% scale and an 80% is generally passing unless an outside certifying agency requires higher.

All instructors will use the same syllabi and meet the same standards and procedures for evaluating both academics and practical skills to maintain uniformity.

Minimum Satisfactory Grades

Students must complete all knowledge reviews, dive table worksheets, and swim tests. Students passing the final exam with an average of 80% and above and 100% on the dive table worksheets will satisfactorily complete requirements for certification.

Conditions for Expulsion or Suspension for Unsatisfactory Grades or Progress

If a student fails to complete all class, pool, and open water work, the student will be unable to complete certification.

Standard of Progress

Failing to meet minimum grade point averages (3.0) or failing written exams will be cause for Academic Probation. Failure to improve in the next 4 week period is

cause for dismissal. Students dismissed may request reinstatement in writing to the head of training. The student may be allowed to attend another scheduled program assuming there is a reasonable chance for success.

As the student progresses through the program they will be counseled on his or her strengths and weaknesses in all areas of instruction.

Description of Probationary Period (if any)

Students have within a year of initiation to complete the required coursework.

Conditions of Reentrance for Students dismissed for unsatisfactory progress

Reentrance is based on the instructor's approval.

Progress Records Kept & Furnished to Students (Transcripts)

All coursework will be maintained at the Discovery Diving facilities. A file folder with all the student's information and records are kept there.

Progress Records

As of now all progress records for both practical skills and academic work of the students, veteran and non-veteran alike are maintained on the DDC premises for at least 3 years after completion of course. A digital version will also be kept off site. If DDC were to close their doors, we will contact James Sorrell, Registrar, and North Carolina State Archives and arrange for the permanent preservation of student academic and financial records. Members of the staff counsel students on a daily basis but if an issue arises a counseling session will be scheduled to discuss the issue. Records of these sessions and evaluations will be part of the permanent student record. Grade reports are furnished for all students at the end of each scheduled school term. Students have access to their records of attendance, program study, grades, practical and academic achievement and financial records free of charge. Copies will be made for a small fee.

Policy/Regulations – Re: conduct (student conduct conditions for dismissal for unsatisfactory conduct)

Students are required to perform to the best of their ability, to respect their peers and to respect the instructors. Any violation of these will receive a warning and if continued abuse occurs, then the student will be asked to leave the course without refund.

Conduct

Students are expected to conduct themselves with courtesy, promptness, preparedness, enthusiasm and cooperation. Dismissal for unsatisfactory conduct will be made if a student's behavior disrupts the learning environment thus interfering with other students learning or negatively affects safety. Dismissal will also result if a student's behavior creates an unfavorable impression in the community about the school.

Use of illegal drugs is cause for immediate dismissal. Use of prescription drugs or alcohol affecting the student's behavior during class is cause for probation. A second incident may result in dismissal.

APPEALS

Any student complaints or appeals should be made to the Company President in writing within 5 business days of the incident. Decisions by the president are final.

Detailed Schedule for Costs

Program Information and costs

SCUBA Divemaster Program for Elite Professionals:

There are 320 clock hours for the SCUBA Divemaster Program for Elite Professionals and the cost of the program is \$5,800.00. This weekday program is fast paced and takes approximately 2 months. The weekend program is spaced out a bit and takes approximately 4 months. Books are not included and must be purchased separately. The following provides a breakdown of costs (including fees, books, etc) for each course. A complete listing of the courses required for the SCUBA Divemaster Program for Elite Professionals is provided on pages 94-98.

SCUBA Instructor Program for Elite Professionals:

There are 716 clock hours for the instructor program and the cost of the program is \$18,900.00. The weekday program is fast paced and takes approximately 4 months. The weekend program is spaced out a bit and takes approximately 9 months. Students interested in using their VA benefits and concerned about using their full BAH may avail themselves of the 5-term calendar that also takes approximately 9 months. Books are included past PADI 451 Divemaster Prep I. The following provides a breakdown of costs (including fees, books, etc) for each course. A complete listing of the courses required for the SCUBA Instructor Program for Elite Professionals is provided on pages 99-107.

Master SCUBA Diver Trainer for Elite Professionals:

There are 814 clock hours for the Master SCUBA Diver program and the cost of the program is \$18,500.00. The weekday program is fast paced and takes approximately 2 months. The weekend program is spaced out a bit and takes approximately 4 months. Books are included. The following provides a breakdown of costs (including fees, books, etc) for each course. A complete listing of the courses required for the Master SCUBA Diver Trainer Program for Elite Professionals is provided on page 108-111.

A down payment is required upon registration for a course. Payment in full is due at the beginning of the course and students will not be allowed to participate in classes if they have not paid. DDC accepts Cash, Credit Cards, Debit Cards, and personal checks. Monthly plans of \$1,450 per month for the SCUBA Divemaster Program for Elite Professionals program and \$2,100 per month for the SCUBA Instructor Program for Elite Professionals can be arranged. At this time, no scholarships are available.

Fees

Fees include the charter boat costs required for offshore dives. In general, half day charters are \$65/day, full day charters are \$115/day and long day charters of \$140/day. Fees also include processing and administration charges.

PADI 710 - O2 Instructor	\$95.50	
PADI 720 - EFR Instructor	\$300.00	
PADI 730 – Instructor Exam	\$400.00	
PADI 800 – Deep Diver Instructor		\$500.00
PADI 810 – Underwater Photography Instructor		\$2000.00
PADI 820 – Enriched Air Nitrox Instructor		\$500.00
PADI 830 – Night Diver Instructor		\$500.00
PADI 840 – Search and Recovery Instructor		\$500.00
PADI 850 – Side-Mount Diver		\$2000.00
PADI 860 – Underwater Hunter Instructor		\$500.00
PADI 870 – Wreck Diver Instructor		\$500.00

Tools

The equipment costs above may also be considered tools of the trade and are required for all program students when they take PADI 601.

Student Activities

There are no other associated student activity fees.

Lab Fees

Fees for pool use are included into the base course costs.

Deposits

A deposit of \$65 or \$115, depending on the class, is required as a down payment for all classes.

Other

All PADI materials are all rights reserved. No part of their books may be reproduced in any form without written permission of the publisher. This also applies to all DDIC materials.

Students will not be allowed to attend the modules in the programs if they have not paid for the modules.

Policy/Regulations – Re: Refund

Refund of unused portions of tuition, fees, etc if student does not enter course

Students will be refunded the full course costs less an administrative fee if they withdraw before the first day of class or the school cancels the class and seventy-five percent (75%) refund if the student withdraws within the first 25% of the period of enrollment for which the student was charged. All refunds will be made within forty-five (45) calendar days of the first scheduled day of class or after the last date of attendance.

If student withdraws from course

Students will not be refunded any money if they voluntarily withdraw from the course after having completed more than 25% of the course.

If student is discontinued

Students will not be refunded any money if they are asked to withdraw from the course due to poor or negligent behavior.

Refund Policy

A student cancelling enrollment before the start of class and students withdrawing after class starts will be refunded any unused portion of the tuition, fees and other charges. The charges to the eligible person for tuition, fees, and other charges will not exceed the approximate pro-rata portion of the tuition, fees and other charges that the length of the completed portion of the course bears to the total length of the course minus and administrative fee. DDC will have 30 days after withdrawal or termination to pay any refund due.

All programs are subject to change, lack of availability or cancellation without notice.

Cancellations

1. Rejection of Applicant: If an applicant is rejected for enrollment, or if a prospective international student has his/her visa application rejected, a full refund of all tuition monies paid will be made to the applicant.

2. Program Cancellation: If DDIC cancels a program subsequent to a student's enrollment, the institution will refund all monies paid by the student.

3. Cancellation Prior to the Start of Class or No Show: If an applicant accepted by DDIC cancels prior to the start of scheduled classes or never attends class (no-show), the institution will refund all monies paid, less a maximum application/registration fee of \$100, as noted on the enrollment agreement. DDIC may retain any actual housing costs incurred.

4. Cancellation after the start of class: A withdrawal will be considered a cancellation or no-show if the withdraw occurs within the first week of the program. All charges will be refunded and all payments returned to the individual or the applicable funding source less the \$200 registration fee.

As per the ACCET Document 31, the following refund policy applies:

1. DDIC will retain an administrative fee associated with withdrawal or termination of \$100.00

2. During the first week of classes, tuition charges withheld will not exceed 10 percent (10%) of the stated tuition up to a maximum of \$1,000. When determining the number of weeks completed by the student, DDIC will consider a partial week the same as if a whole week were completed, provided the student was present at least one day during the scheduled week.

3. After the first week and through fifty percent (50%) of the period of financial obligation, tuition charges retained will not exceed a pro rate portion of tuition for the training period completed, plus ten percent (10%) of the unearned tuition for the period of training that was not completed.

4. After fifty percent (50%) of the period of financial obligation is completed, DDIC may retain the full tuition.

Refunds will be calculated based on State/VA refund policies and through our policy. Whichever amount is benefits the student will be returned to the student.

Description of Facilities (general)

Space

The first floor has 1500 square feet and houses rental equipment, equipment for purchase, compressed air supply, and bathrooms. The second floor has 1200 square feet that includes the classroom area, the main office, equipment storage facility, and equipment repair facility.

Facilities

Discovery Diving Company is a two story facility located in Beaufort, NC. All equipment required for SCUBA diving, either for rent or for purchase is available on the first floor of the facilities. The second floor of the facilities represents the main classroom area which includes white board, TV/DVD, and exemplary learning material. In addition, the second floor of the facility houses the repair station and main office.

Equipment

All equipment necessary for SCUBA diving and for completing the courses are available for purchase. Masks, fins, snorkels, wetsuits, booties, buoyancy compensator devices (BCDs), regulators, alternate air sources, dive knives, dive lights, dive slates, timing devices, underwater cameras, depth gauges, fish ID books, etc.

Career Placement

Students will have access to College computers for online searching of possible job opportunities. PADI maintains a website of current job openings. Additionally, we receive periodic job announcements, which we forward to students via email. We do not guarantee employment, but we do our best to give our students every job opportunity that we discover.

Housing

Discovery Diving, Co., Inc maintains 2 dive lodges and students may stay in these lodges at a reduced rate.

Counseling

We are available by cell phone, email, or person to person counseling anytime during the weekends and by appointment.

Policy/Regulations Re-Granting Education Credit Previous Educational Training

DDC accepts training from other training institutions such as NAUI, SSI, etc. When students enter the program, their skill level will be assessed by instructors and the appropriate class work required will be laid out for them.

CREDIT FOR PREVIOUS EDUCATION AND TRAINING

Students can receive credit for previous certifications and training. VA students must report and document all similar certifications and training to DDC. DDC will evaluate the training and grant credit on a case by case basis. We accept PADI certifications that have been completed within the last 6 months. If credit is granted the tuition and duration of training will be reduced accordingly and a written notice of the credit will be supplied to the student and a copy to the VA.

(This policy applies to all post-secondary education.)

The institution will require high school transcript, proof of high school graduation (or equivalency) or documented ability to benefit and transcripts for all post-secondary education. Prior to initial certification for Veterans benefits, the following will occur:

- 1. All post-secondary transcripts will be evaluated for applicable transfer credit. Applicable credit or lack thereof will be noted in the student's academic file.*
- 2. For transfer credit accepted, appropriate reduction in the course of instruction will be granted.*
- 3. Appropriate adjustment will be made in tuition and fees corresponding to the acceptance of transfer credit for any program of instruction.*

PROGRESS RECORDS

DDC maintains progress records for both practical skills and academic work for all students. Staff council students on a daily basis but if an issue arises a counseling session will be scheduled to discuss the issue. Records of these sessions and evaluations will be part of the permanent student record. Records are maintained at DDC and digitally off site. Students have access to their records of attendance, program study, grades, practical and academic achievement and financial records free of charge. Copies will be made for a small fee.

Teach-out

The institution has and maintains the following policy with regard to continuation of current educational classes (a teach-out): In the event that the institution, for any reason, is unable to continue operation as an educational entity, sufficient bonding is in place to refund tuition and fees for currently enrolled classes as well as the refund of any unearned tuition and fees for educational programs (pre-paid tuition and fees) that cannot be completed through the awarding of terminal certificates, diploma, and/or degrees.

Other

Course Outline

For each course provided by DDC, a detailed description of the course, including course outline follows (pages 33-59)

Subjects/Units

For each course provided by DDC, a detailed description of the subject matter follows (pages 33-59).

Type of Skill to be learned

For each course provided by DDC, a detailed description of the types of skills to be learned follows (pages 33-59).

Approximate Duration of Time

Approximate time required for each course is described as follows (pages 33-59).

Clock Hours

Clock hour estimates for each course are provided as follows (pages 33-59).

Credit Hours/Credit Hour Equivalent

Credit hour equivalents for some of the courses in the Programs are given. These are given by PADI's ACE accreditation for those particular classes. Granting institutions maintain the right to offer credit hours.

PADI 100 - PADI Open Water SCUBA diver

Overview

The PADI Open Water course is designed to provide the student with the basic knowledge and skills to safely gain limited experience in the diving environment under favorable conditions. We recommend that the newly qualified SCUBA diver limit diving to calm, shallow waters with an experienced buddy and engage in special diving activities only after qualifying through training for the particular activity.

Minimum Age

15 for an Open Water certification. People 10 to 15 years old receive a Junior Open Water Certification.

Class Description

Training is divided into 8 major categories:

- Diving Equipment
- Medical Aspects
- Diving Physics
- Diving Environment
- Dive Tables
- Diving Practices
- Diving Activities
- SCUBA Diving Skills

There are approximately 12 hours of class work and 12 hours of pool work, depending on the progress of the class.

The class culminates with 4 SCUBA dives, which are beach entry dives. We include 2 Boat dives to the Indra, for extra experience on a charter boat and diving on a wreck (weather permitting). If the weather does not permit the Boat Dive, you can come back and do it with another class.

Requirements

Each person must:

- Take a swim evaluation consisting of:
 1. 200 yard swim with any combination of strokes
 2. 10 minute Float
 3. 5 Minute Tread
 4. Breath Hold Swim
- Satisfactorily pass a written examination
- Supply mask, fins, and snorkel, PADI Open Water Manual with tables and Divers Log Book

NOTE: Students without mask, fins, and snorkel are requested to wait until after the first class session before purchasing them. The first session details these items and provides information for selecting appropriate and adequate equipment.

Before Class

- Read the first three sections of text book and answer the questions at the end of each section before the first class meeting
- Complete the [Medical Form](#)

After Certification, students will be allowed to use the SCUBA gear limited to BC, regulator, and tank **FREE OF CHARGE** any time we are doing student dives or when they are participating in higher level and Specialty Classes.

PADI 110 – Boat Diving Course

Overview

This course is designed to acquaint divers with the aspects of boat diving including terminology, layout, storage areas, off-limit areas, location of emergency equipment, boarding/debarking techniques, water entry and exit techniques and general in-water dive procedures.

Prerequisites

PADI Open Water Diver or equivalent rating.

Minimum Age

12

Class Description

Classroom Lectures will cover:

- Layout
- Storage areas
- Off-limit areas
- Location of emergency equipment
- Boarding/Deboarding procedures
- Water entry
- Exit techniques
- General in-water dive procedures

Training includes 2 boat dives.

Equipment Requirements:

- Full SCUBA including submersible pressure gauge and an alternate air source
- Compass
- Dive Knife
- Whistle
- Depth Gauge
- Dive Timer
- PADI Boat Diving Manual

Before Class

- Students should read and answer the questions in the Boat Diving manual before the first class meeting.

- Complete the [PADI Medical Form](#) prior to first day of class.

PADI 111 - Underwater Navigator

Overview

The PADI Underwater Navigator course is designed to familiarize the diver with the enjoyment of underwater navigation.

Prerequisites

Prerequisite certification is PADI Open Water Diver or equivalent certification.

Minimum Age

12

Class Description

- Classroom Lectures will cover:
 1. Skills
 2. Knowledge
 3. Planning
 4. Organization
 5. Procedures
 6. Techniques
 7. Problems
 8. Hazards
- 3 Open Water Dives

Equipment Requirements:

- Full SCUBA including submersible pressure gauge and an alternate air source
- Compass
- Dive Knife
- Whistle
- Depth Gauge
- Dive Timer
- PADI Underwater Navigator Manual

Before Class

- Students should read and answer the questions in the PADI Underwater Navigator manual before the first class meeting.
- Complete the [PADI Medical Form](#) prior to first day of class.

PADI 112 - Dry Suit Diving

Overview

This course is designed to provide the student an understanding about diving in dry suits and to help the student to develop the skills, knowledge, and techniques necessary for dry suit diving.

Prerequisites

Prerequisite certification is PADI Open Water or equivalent rating.

Minimum Age

12

Class Description

Training consists of classroom sessions, a pool session, and two open water dives.

Classroom Lectures will cover:

- Types of Dry Suits
- Determining Fit
- Buoyancy Control
- Ascending and Descending
- Basic Care and Maintenance
- Pool Session

2 Open Water Dives

Equipment Requirements

- Full SCUBA including submersible pressure gauge and an alternate air source
- Compass
- Dive Knife
- Whistle
- Depth Gauge
- Dive Timer
- Dry Suit
- PADI Dry Suit Diver Manual

Before Class

- Students should read and answer the questions in the PADI Dry Suit manual before the first class meeting.
- Complete the [PADI Medical Form](#) prior to first day of class.

PADI 113 – Diver Propulsion Vehicle

Overview

The PADI Diver Propulsion Vehicle course is designed to familiarize the diver with the enjoyment of underwater diving with a propulsion vehicle

Prerequisites

Prerequisite certification is PADI Open Water Diver or equivalent certification.

Minimum Age

12

Class Description

- Classroom Lectures will cover:
 1. Skills
 2. Knowledge
 3. Planning
 4. Organization
 5. Procedures
 6. Techniques
 7. Problems
 8. Hazards
- 3 Open Water Dives

Equipment Requirements:

- Full SCUBA including submersible pressure gauge and an alternate air source
- Compass
- Dive Knife
- Whistle
- Depth Gauge
- Dive Timer
- PADI Underwater Navigator Manual

Before Class

- Students should read and answer the questions in the PADI Underwater Navigator manual before the first class meeting.
- Complete the [PADI Medical Form](#) prior to first day of class.

PADI 114 - Full Face Mask

Overview

The PADI Full Face course is designed to educate divers about the use of Full Face Masks, with emphasis on the AGA Mask and the Ocean Reef Masks. This program will introduce the participants to Full Face Masks and the use of underwater communication equipment.

Prerequisites

Prerequisite certification for enrollment is PADI Open Water Diver or an equivalent rating.

Minimum age

15

Class Description

Classroom sessions will cover:

- Planning
- Organization Procedures
- Techniques
- Potential Problems and Hazards of Full Face Masks
- Communication Equipment

Pool sessions and 2 Open Water dives

Equipment Requirements

- Full SCUBA including submersible pressure gauge and an alternate air source
- Compass
- Dive Knife
- Whistle
- Depth Gauge
- Dive Timer
- Full Face Mask

Before Class

- Complete the [PADI Medical Form](#) prior to first day of class.

PADI 115 - Underwater Naturalist

Overview

The PADI Underwater Naturalist course is designed to be an introduction to the underwater aquatic environment and to help the student diver develop safe and responsible interaction with aquatic life.

Prerequisites

Prerequisite certification is PADI Open Water Diver or equivalent certification.

Minimum Age

12

Class Description

- Classroom Lectures
- 2 Open Water Dives

Equipment Requirements

- Full SCUBA including submersible pressure gauge and an alternate air source
- Compass
- Dive Knife
- Whistle
- Depth Gauge
- Dive Timer
- Slate with Pencil
- Reef Creature Identification Book

Before Class

Complete the [PADI Medical Form](#) prior to first day of class.

PADI 116 – Drift Diver Class

Overview

The PADI Drift Diver course is designed to familiarize the diver with the enjoyment of diving while using the currents to drift dive.

Prerequisites

Prerequisite certification is PADI Open Water Diver or equivalent certification.

Minimum Age

12

Class Description

- Classroom Lectures will cover:
 1. Skills
 2. Knowledge
 3. Planning
 4. Organization
 5. Procedures
 6. Techniques
 7. Problems
 8. Hazards
- 3 Open Water Dives

Equipment Requirements:

- Full SCUBA including submersible pressure gauge and an alternate air source
- Compass
- Dive Knife
- Whistle
- Depth Gauge
- Dive Timer
- PADI Underwater Navigator Manual

Before Class

- Students should read and answer the questions in the PADI Drift Diver manual before the first class meeting.
- Complete the [PADI Medical Form](#) prior to first day of class.

PADI 117 – Aquarium Collecting Course

Overview

This course is designed to give the diver the necessary skills and knowledge for establishing and maintaining Salt Water aquariums.

Prerequisites

Prerequisite certification is PADI Open Water Diver or an equivalent certification. The Fish Identification Course is recommended.

Minimum Age

12

Class Description

- Classroom Lectures will cover:
 1. Aquarium Construction Ideas
 2. Maintenance
 3. Capture Techniques
 4. Transporting
 5. Decompression Techniques
 6. Oxygen Use
 7. Bagging Fish
- Open Water Dive(s)

Equipment Requirements:

- Full SCUBA including submersible pressure gauge and an alternate air source
- Compass
- Dive Knife
- Whistle
- Depth Gauge
- Dive Timer

- Slate with Pencil
- Goody Bag
- Collecting Net

Before Class:

- Complete the [PADI Medical Form](#) prior to first day of class.

PADI 118 - Night Diver

Overview

The PADI Night Diver course is designed to prepare the diver to dive safely at night.

Prerequisites

PADI Open Water Diver or equivalent rating.

Minimum Age

12

Class Description

Classroom Lectures will cover:

- Planning and preparation for night diving
- Procedures and techniques for night diving
- Problems and hazards
- Dive lights
- Navigation
- Buddy systems
- Communication
- Buoyancy control
- Disorientation
- Nocturnal marine life

Training includes 3 shore dives. (All 3 may all be done in a single night)

Note: The Night Dive from Advanced Open Water counts towards the 4 total dives needed for certification

Equipment Requirements:

- Full SCUBA including submersible pressure gauge and an alternate air source
- Dive light – Primary
- Dive light – Back up
- Compass
- Dive knife
- Whistle
- Personal marker light
- Depth gauge
- Bottom timer
- PADI Night Diver Manual

Before Class

- Students should read and answer the questions in the PADI Night Diver Manual before the first class meeting.

Complete the [PADI Medical Form](#) prior to first day of class.

PADI 119 - Underwater Photography

Overview

This course covers basic underwater digital photography with special emphasis on practical photographic techniques, covering such subjects as; available light, flash photography, camera handling, composition, photographic principles and care and maintenance of equipment.

Prerequisites

Prerequisite certification for enrollment is PADI Open Water Diver or equivalent rating.

Minimum Age

12

Class Description

The PADI Digital Underwater Photography course covers the essentials of making images and is a hands-on clinic with digital systems at the heart of this course designed for both the beginner and the intermediate photographer.

Classroom Lectures will cover:

- Available Light
- Flash Photography
- Camera Handling
- Composition
- Photographic Principles
- Care and Maintenance of Equipment

4 Open Water Dives that include:

- 2 Shore Dives at Radio Island
- 2 Dives at the Indra

Equipment Requirements:

- Full SCUBA including submersible pressure gauge and an alternate air source
- Compass
- Dive Knife
- Whistle
- Depth Gauge
- Dive Timer
- Digital Camera with housing (Rental Cameras are available)
- PADI White Balance Slate
- PADI Digital Underwater Photography Manual

Before Class:

- Students should read and answer the questions in the PADI Digital Underwater Photography Manual before the first class meeting.
- Complete the [PADI Medical Form](#) prior to first day of class.

PADI 120 – AWARE Fish Identification

Overview

The PADI AWARE Fish Identification course is designed to give the diver adequate knowledge to correctly identify North Carolina tropical reef fish, temperate water fish, as well as some of the more frequently encountered Caribbean reef fish.

Prerequisites

Prerequisite certification is PADI Open Water Diver or equivalent certification.

Minimum Age

12

Class Description

Training consists of:

- Classroom Lectures
- 2 Open Water Dives

Equipment Requirements:

- Full SCUBA including submersible pressure gauge and an alternate air source
- Compass
- Dive Knife
- Whistle
- Depth Gauge
- Dive Timer
- Slate with Pencil
- Reef Fish Identification Book

Before Class:

- Complete the [PADI Medical Form](#) prior to first day of class.
-

PADI 121 - Peak Performance Buoyancy

Overview

The PADI Peak Performance Buoyancy course will enhance the diver's buoyancy control ability through knowledge development and practical skills. By the end of the course you will be able to successfully run through a buoyancy course. Prerequisite certification for enrollment is PADI Open Water Diver or to have an equivalent rating.

Minimum Age

12

Training consists of:

Equipment Requirements:

- Full SCUBA including submersible pressure gauge and an alternate air source
- Compass
- Dive Knife
- Whistle
- Depth Gauge
- Dive Timer

Before Class:

- Students should read and answer the questions in the Peak Performance Buoyancy Section of the PADI Adventures in Diving manual before the first class meeting.
- Complete the [PADI Medical Form](#) prior to first day of class.

PADI 200 - PADI Advanced SCUBA Diver

Overview

The PADI Advanced Open Water Diver course is designed to enhance the experience, skill and knowledge of the diver for practical application in the diving environment. This course is a prerequisite for the Rescue Diver, Dive Master and Master Diver courses.

Prerequisites

PADI Open Water Diver or to have an equivalent rating.

Minimum age

15, or 12 for junior advanced open water.

Class Description

Training is divided into Classroom lectures and corresponding dives in the areas of:

- Natural and Compass Navigation
- Wreck Diving
- Deep Diving
- Search & Recovery
- Diver Propulsion Vehicle (Scooter)
- Night (Tide permitting)

Equipment Requirements

- Full SCUBA including submersible pressure gauge and alternate air source
- Dive Light – Primary
- Dive Light – Back up
- Compass
- Dive Knife
- Whistle
- Personal Marker Light
- Depth Gauge
- Dive Timer
- PADI Adventures in Diving Manual with Slate
- Dive Slate (recommended)

Before Class

- Students should read and answer the questions for Deep, Wreck, Search and Recovery, Underwater Navigation, Night, and Diver Propulsion Vehicle (DPV) before the first class meeting.
- Complete the [PADI Medical Form](#) prior to first day of class.

PADI 210 - PADI Nitrox Diver

Overview

This course is designed to give the necessary skills and knowledge for diving with Enriched Air Nitrox. The course consists of a minimum of four hours of lectures and classroom exercises. The student will develop a working knowledge of Enriched Air Nitrox, physiological aspects of breathing oxygen at elevated partial pressures, computation of equivalent air depths, use of dive tables, oxygen analysis, dive planning, and special equipment requirements.

Prerequisite

PADI Open Water Diver or equivalent rating.

Minimum Age

15

Class Description

Classroom sessions will cover:

- A working knowledge of enriched air
- Physiological aspects of breathing oxygen at elevated partial pressures
- Computations of Equivalent Air Depths
- Use of dive tables
- Cylinder content analysis
- Dive planning
- Special equipment requirements

Equipment Requirements:

- PADI Enriched Air Manual
- PADI 32% Enriched Air Table
- PADI 36% Enriched Air Table
- DSAT Equivalent Air Depth Table
- PADI Air Table
- Calculator (recommended)

Before Class:

- Students should read the PADI Enriched Air Manual, answer the Exercise Questions, and complete the Knowledge Reviews before the first class meeting.
- Practice using the PADI Tables
- Download and complete the [PADI Medical Form](#) prior to the first day of class.

PADI 220 Equipment Specialist

Overview

The PADI Equipment Specialist course is designed to be an introduction to new types of equipment and to familiarize divers with the operation and maintenance of equipment.

NOTE: This is not an equipment repair certification course.

Prerequisites

Prerequisite certification is PADI Open Water Diver or an equivalent rating.

Minimum Age

12

Equipment Requirements

None

SCUBA Equipment Care and Maintenance Manual recommended.

PADI 230 - Underwater Hunter

Overview

The PADI Underwater Hunter course is centered on hunting with spear guns and pole spears. The course will also be used to develop the required knowledge and skills for underwater collecting of items such as shells, artifacts, or tropical fish.

Prerequisites

Prerequisite certification is PADI Advanced Open Water Diver or an equivalent rating.

Minimum Age

15

Class Description

- Classroom Lectures will cover:
 1. Safety
 2. Operation
 3. Maintenance
 4. Target Identification
 5. Types of Spearfishing Equipment
 6. Conservation
 7. Fish and Game Regulations
- 4 Open Water Dives

Equipment Requirements:

- Full SCUBA including submersible pressure gauge and an alternate air source
- Compass
- Dive Knife
- Whistle
- Depth Gauge
- Dive Timer
- Goody Bag
- N.C. Saltwater Fishing License

All spear equipment is supplied, but students should feel free to use their own if they wish.

Spearfishing and Underwater Hunting Handbook is recommended.

Before Class

Complete the [PADI Medical Form](#) prior to first day of class.

PADI 240 – Narcosis Management Course

Overview

This course is offered through PSAI. This course will have you perform underwater skills that relate to the real world of diving: Keeping up with Depth, Air, Time, and Awareness (DATA).

Prerequisites

Prerequisite certification is Advanced Open Water. Participants are required to have DAN Master Insurance or higher.

Minimum Age

Minimum age for enrollment is 15 for Level 1 and 2.
Minimum age for enrollment is 18 for Level 3.

Class Description

Training consists of classroom sessions, a pool session, and four open water dives.

You must become comfortable and competent with the mental and motor skills at each training depth before training down to the next level.

The training in this course covers:

- Equipment Selection and Configuration
- Dive Planning and Gas Management
- Buddy Awareness
- Dive Execution
- Preparing for and responding to foreseeable technical diving emergencies

This course is taught on air.

The levels that are taught are:

Level 1 (100 Feet)

Level 2 (130 Feet)

Level 3 (150 Feet).

Equipment Required

Contact the shop for a full description.

PADI 250 - Shark Awareness

Overview

The PADI Shark Awareness course is designed to educate the diver about sharks, with emphasis on the Atlantic Sand Tiger. This course will also give an understanding into the true nature of sharks and dispel any preconceived notion about sharks.

Prerequisites

Prerequisite certification for enrollment is PADI Advanced Open Water Diver or an equivalent rating.

Minimum Age

15

Class Description

- Classroom Lectures will cover:
 1. Habitat of sharks
 2. Characteristics of sharks
 3. Atlantic Sand Tiger Sharks
 4. Bull Sharks
 5. Great White Sharks
 6. Hammerhead Sharks
 7. Conservation of sharks
- 2 Open Water Dives

Equipment Requirements

- Full SCUBA including submersible pressure gauge and an alternate air source
- Compass
- Dive Knife
- Whistle
- Depth Gauge
- Dive Timer

Before Class

- Complete the [PADI Medical Form](#) prior to first day of class.

PADI – 300 PADI Rescue Diver

Overview

The PADI Rescue Diver course is designed to develop the necessary knowledge and skills for individuals to effectively perform diver rescues and assists, manage diving accident situations, render proper first aid and qualify for PADI Divemaster training.

Prerequisites

Prerequisite certification for enrollment is PADI Advanced Open Water Diver or has an equivalent rating. Divers must also complete a PADI Emergency First Response Course or equivalent First Aid and CPR Course prior to course completion.

Minimum Age

12

Class Description

The PADI Rescue Diver course is designed to develop the necessary knowledge and skills for individuals to effectively perform diver rescues and assists, manage diving accident situations, render proper first aid, and qualify for PADI Divemaster training.

Training consists of:

- Classroom sessions
- Confined Water Training
- Open Water Training Scenarios
- Final Exam

Equipment Requirements:

- Full SCUBA including submersible pressure gauge and an alternate air source
- Compass
- Dive Knife
- Whistle
- Depth Gauge
- Dive Timer
- PADI Rescue Manual with Slate

A Pocket Mask is recommended.

Before Class:

- Students should read and answer the questions at the end of each section before the first class meeting.
- Complete the [PADI Medical Form](#) prior to first day of class.

PADI 320 - Wreck Diver

Overview

The PADI Wreck Diver course is designed to provide the diver with the necessary skills and knowledge for safe wreck diving.

Prerequisites

Prerequisite certification for enrollment is PADI Advanced Open Water Diver or equivalent rating.

Minimum Age

15

Class Description

Classroom sessions will cover:

- Planning
- Organization Procedures
- Techniques
- Problems and Hazards of Wreck Diving
- Wreck Penetration Procedures

The course also consists of 4 Open Water Dives. (One of the dives includes limited Wreck Penetration)

Equipment Requirements:

- Full SCUBA including submersible pressure gauge and an alternate air source
- Compass
- Dive Knife
- Whistle
- Depth Gauge
- Dive Timer
- Dive Light – Primary
- Dive Light – Back-up
- Wreck Reel
- PADI Wreck Diver Manual

Before Class:

Students should read and answer the questions in the PADI Wreck Diver Manual before the first class meeting.

Complete the [PADI Medical Form](#) prior to first day of class.

PADI 330 - Search and Recovery

Overview

The PADI Search and Recovery course is designed to acquaint the diver with the techniques and applications of search and recovery methods.

Prerequisites

PADI Advanced Open Water Diver or equivalent rating.

Minimum Age

12

Class Description

Classroom Lectures will cover:

- Planning
- Procedures
- Techniques
- Problems and hazards of Search and Recovery
- Organization
- Navigation
- Limited visibility diving
- Object location
- Salvage methods

Training includes 4 Open Water dives

Equipment Requirements

- Full SCUBA including submersible pressure gauge and an alternate air source
- Dive light – Primary
- Dive light – Back up
- Compass
- Dive knife
- Whistle
- Personal marker light
- Depth gauge
- Bottom timer
- PADI Search and Recovery Manual

Before Class:

- Students should read and answer the questions in the PADI Search and Recovery manual before the first class meeting.
- Complete the [PADI Medical Form](#) prior to first day of class.

PADI 340 - PADI Oxygen Provider

The PADI Oxygen Provider course is designed to teach you how to recognize diving illnesses treatable by emergency oxygen, properly setup oxygen equipment, and administer emergency oxygen. **Prerequisite: None**

PADI 350 - On-site Neuro, Emergency First Responder and First Aid

The PADI Emergency First Responder and First Aid course is designed to teach BLS (Basic Life Support) CPR and rescue breathing at the layperson level, AED (automated external defibrillator) use (optional), preventing and caring for shock, spinal injury management, use of barriers to reduce disease transmission risk, and basic first aid and first aid kit considerations

Prerequisite: None

PADI 360 – Event Management

Learn how to design a non-profit, community outreach SCUBA event, including the preparation, advertising, and event management during the event.

Prerequisite: None

PADI 400 - Public Safety Diver Specialty Course

PADI Americas, working in conjunction with several PADI Members who are respected and experienced in the public safety diving field, has produced the PADI Standardized Public Safety Diving program. Public safety divers, conduct a variety of important and potentially stressful underwater tasks - including **rescue, evidence and body recovery, underwater inspections and more** - for local communities. Public safety divers are typically in the police department, fire department or emergency services and couple their job experience with specialized dive training to carry out these underwater activities in a safe, efficient manner.

What You Learn

The new PADI Public Safety Diving course is designed to familiarize divers with the skills, knowledge, planning, organization, procedures, techniques and hazards of public safety diving. The course covers several key topics that include:

- specialized public safety diving equipment
- scene handling
- communication procedures
- search patterns
- witness handling
- victim and self rescue techniques

Water skills include a variety of common, useful search patterns as well as team diving roles as primary diver, safety diver, tender, 90 percent diver and supervisor. The program uses proven field techniques

and both meets and addresses important National Fire Protection Association (NFPA) guidelines found in NFPA 1006 and 1670 (not including disciplines Ice 9/3/7, Surf 9.2.8, or Swift 9.3.9) .

Prerequisites: *Public Safety Diver Student*

- PADI Advanced Open Water Diver or qualifying equivalent certification
- PADI Rescue Diver or qualifying equivalent certification*
- 18 years of age
- Proof of affiliation/employment with a public safety team (law enforcement, fire, paramedic, EMT, dive rescue team, etc.)

****You may also need to conduct ancillary programs (PADI Dry Suit Diver or a Distinctive Specialty program on full-face mask, for example) to fully prepare divers to carry out public safety diving operations in your region's conditions.***

Please note that only individuals employed in fields such as law enforcement, fire suppression and emergency services are qualified to take the PSD Specialty program. The PADI Public Safety Diver program will lay an excellent foundation for dive team members with little or no experience but will also work well for experienced divers wanting to refresh basic skills and learn new public safety diving techniques.

The first step is to train up to the PADI Rescue Diver level. This is the minimum prerequisite certification required and meets important criteria, but it also establishes a solid foundation for public safety diver training. The PADI Search and Recovery Diver course is also beneficial as it will help divers with some of the search and recovery techniques used extensively in public safety diver training and in the field.

The Materials & Equipment You Need:

- Two Cutting Devices (shears, knife, seat belt cutter, etc.)
- Two Scuba Cylinders - 80 cubic feet or larger
- Two surface signaling devices (whistle, surface marker buoy, etc.)
- All personal standard dive equipment
- Pocket mask
- Log book
- Recommended: PADI Rescue Manual, Encyclopedia of Recreational Diving, Spare mask, PFD (personal flotation device), Support equipment (first aid, oxygen, communications equipment, etc)

Program & Certification Requirements

PSD is taught using a combination of classroom presentations, surface practice sessions, and 4 Open Water dives over 2 days. Confined water sessions may be added to introduce new skills or equipment to the class. The student diver must demonstrate accurate and adequate knowledge and performance of all skills fluidly with little difficulty, in a manner that demonstrates minimal or no stress during the Open Water dives.

In addition, ancillary programs, such as PADI Dry Suit Diver or a PADI Distinctive Specialty program on full face mask diving, may be conducted to ensure divers have any specific skills pertinent to the region in which they will be operating. This Specialty course certification also counts as one of five Specialty certifications required for Master Scuba Diver certification.

PADI 410 - Scientific Diver Course

The Scientific Diver Course is designed to teach an open water SCUBA diver the basics of rescue diver and scientific diver techniques to become AAUS (American Association of Underwater Scientists) certified. Divers will learn how to design and implement underwater research projects. Basic techniques include quadrat surveys, transect surveys, fish identification and surveys, and the use of Underwater photography and digital movies for research purposes. In addition, participants will learn how to collect organisms and maintain their health for research purposes.

Students train 2 weeks in North Carolina on wrecks and rock jetties. Once skills are fine tuned, the students will travel to a remote location for 10 days to conduct required coral reef surveys.

Minimum age is 18.

PADI 451 - PADI Divemaster Prep I

The Dive Master Prep I course is conducted prior to the enrollment in the PADI 500 Divemaster Course. The individual taking this course has a high level of personal diving skill, is increasing their knowledge towards instructor level for diving theory, works towards obtaining significant training in assisting instructors during training activities and wants to assume a role of responsibility for the welfare of other divers in his/her charge. Specifically, participants learn how to teach all aspects of the Open Water Course Day One.

Prerequisite certification is PADI 100.

Minimum age is 18.

Persons interested in this course are requested to contact the store staff instructors for further information.

PADI 452 - PADI Divemaster Prep II

The Dive Master Prep II course is conducted prior to the enrollment in the PADI 500 Divemaster Course. The individual taking this course has a high level of personal diving skill, is increasing their knowledge towards instructor level for diving theory, works towards obtaining significant training in

assisting instructors during training activities and wants to assume a role of responsibility for the welfare of other divers in his/her charge. Specifically, participants learn how to teach all aspects of the Open Water Course Day Two Classroom work.

Prerequisite certification is PADI 100, PADI 451.

Minimum age is 18.

Persons interested in this course are requested to contact the store staff instructors for further information.

PADI 453 - PADI Divemaster Prep III

The Dive Master Prep course is conducted prior to the enrollment in the PADI 500 Divemaster Course. The individual taking this course has a high level of personal diving skill, is increasing their knowledge towards instructor level for diving theory, works towards obtaining significant training in assisting instructors during training activities and wants to assume a role of responsibility for the welfare of other divers in his/her charge. Specifically, participants learn how to teach all aspects of the Open Water Course Day Two Classroom poolwork.

Prerequisite certification is PADI 100, PADI 452.

Minimum age is 18.

Persons interested in this course are requested to contact the store staff instructors for further information.

PADI 454 - PADI Divemaster Prep IV

The Dive Master Prep course is conducted prior to the enrollment in the PADI 500 Divemaster Course. The individual taking this course has a high level of personal diving skill, is increasing their knowledge towards instructor level for diving theory, works towards obtaining significant training in assisting instructors during training activities and wants to assume a role of responsibility for the welfare of other divers in his/her charge. Specifically, participants learn how to teach all aspects of the Open Water Course Day Three Classroom, poolwork, and open water.

Prerequisite certification is PADI 100, PADI 453.

Minimum age is 18.

Persons interested in this course are requested to contact the store staff instructors for further information.

PADI 455 - PADI Divemaster Prep V

The Dive Master Prep course is conducted prior to the enrollment in the PADI 500 Divemaster Course. The individual taking this course has a high level of personal diving skill, is increasing their knowledge towards instructor level for diving theory, works towards obtaining significant training in assisting instructors during training activities and wants to assume a role of responsibility for the welfare of other divers in his/her charge. Specifically, participants learn how to teach all aspects of the Open Water Course Day Four Classroom and open water.

Prerequisite certification is PADI 100, PADI 454.

Minimum age is 18.

Persons interested in this course are requested to contact the store staff instructors for further information.

PADI 500 - PADI Divemaster Course

The Dive Master course is conducted on an individual basis and denotes an individual who has a high level of personal diving skill, has instructor-level knowledge of diving theory, has had significant training in assisting instructors during training activities and is able to assume a role of responsibility for the welfare of other divers in his/her charge.

Prerequisite certification is PADI Rescue Diver.

Minimum age is 18.

Persons interested in this course are requested to contact the store staff instructors for further information.

PADI 601 – Apprentice Teaching I

The Apprentice Teaching course is conducted prior to the enrollment in the IDC and lets participants hone their teaching abilities. Participants work directly with instructors and teach or aid with teaching the classroom section of the Open Water Day One. Participants will lead lectures, present skills, and conducting Open Water dives. Students must have one of the equipment packages available at DDIC for enrollment in this program. **Prerequisite: PADI 500**

PADI 602 – Apprentice Teaching II

The Apprentice Teaching course is conducted prior to the enrollment in the IDC and lets participants hone their teaching abilities. Participants work directly with instructors and teach or aid with teaching the classroom section of the Open Water Day Two. Participants will lead lectures, present skills, and conducting Open Water dives. **Prerequisite: PADI 500**

PADI 603 – Apprentice Teaching III

The Apprentice Teaching course is conducted prior to the enrollment in the IDC and lets participants hone their teaching abilities. Participants work directly with instructors and teach or aid with teaching the poolwork section of the Open Water Day Two. Participants will lead lectures, present skills, and conducting Open Water dives. **Prerequisite: PADI 500**

PADI 604 – Apprentice Teaching IV

The Apprentice Teaching course is conducted prior to the enrollment in the IDC and lets participants hone their teaching abilities. Participants work directly with instructors and teach or aid with teaching the classroom section of the Open Water Day Three. Participants will lead lectures, present skills, and conducting Open Water dives. **Prerequisite: PADI 500**

PADI 605 – Apprentice Teaching V

The Apprentice Teaching course is conducted prior to the enrollment in the IDC and lets participants hone their teaching abilities. Participants work directly with instructors and teach or aid with teaching the poolwork and open water sections of the Open Water Day Three. Participants will lead lectures, present skills, and conducting Open Water dives. **Prerequisite: PADI 500**

PADI 606 – Apprentice Teaching VI

The Apprentice Teaching course is conducted prior to the enrollment in the IDC and lets participants hone their teaching abilities. Participants work directly with instructors and teach or aid with teaching the openwater section of the Open Water Day Four. Participants will lead lectures, present skills, and conducting Open Water dives. **Prerequisite: PADI 500**

PADI 607 – Apprentice Teaching VII

The Apprentice Teaching course is conducted prior to the enrollment in the IDC and lets participants hone their teaching abilities. Participants work directly with instructors and teach or aid with teaching the classroom and open water sections of Advanced Open Water. Participants will lead lectures, present skills, and conducting Open Water dives. **Prerequisite: PADI 500**

PADI 610 Compressor Operation

Learn the basics of running a compressor. Includes a general knowledge on how to start up and shut down the machine, check for oil and leaks, and preventative maintenance, such as blow downs.

Prerequisite: None

PADI 620 Risk Management and the Paper Trail

Learn a proficient method of record keeping to ensure proper tracking of training and experience.

Includes a round table discussion of diving safety issues and proper responses. **Prerequisite: PADI 500 or PADI 700**

PADI 630 Boat Handling and Crewing

Practical seamanship on a dive boat that provides regular dive charters. Learn how assist and guide inexperienced and experienced divers. Includes anchoring and evaluating dive conditions including currents and visibility affecting divers and stressing diver safety. **Prerequisite: PADI 500**

PADI 640 Group Leadership

Organization, planning and accountability for dive travel. Includes learning how to interface well with store staff and boat crews. Procedures to facilitate an enjoyable time for the dive travel participants. **Prerequisite: None**

PADI 650 SCUBA Cylinder Filling

Learn the basics of filling SCUBA cylinders from a multi-bank fill station. Includes hooking the cylinder up to the filling station, verifying tank pressure, checking cylinder for current VIP and Hydro status. **Prerequisite: None**

PADI 660 How to sell SCUBA Equipment – Retail Sales

Selling the basic SCUBA equipment to divers, includes salesman etiquette, equipment features and benefits presentation, closing the sale, and countering objections. **Prerequisite: Swim test**

PADI 670 Repair

Field Maintenance of all major SCUBA diving brands and types of equipment. **Prerequisite: PADI 220**

PADI 701 - PADI Instructor Course I

The PADI Instructor Development Course (IDC) is the heart of the PADI Instructor training process. During the IDC, qualified PADI Divemasters or Assistant Instructors will apply their diving skills and knowledge to learn how to teach the PADI system in the classroom, confined water (pool) and open water. This section covers the basics of teaching in confined water, general PADI standards, risk management, and basic dive theory.

PADI 702 - PADI Instructor Course II

The PADI Instructor Development Course (IDC) is the heart of the PADI Instructor training process. During the IDC, qualified PADI Divemasters or Assistant Instructors will apply their diving skills and knowledge to learn how to teach the PADI system in the classroom, confined water (pool) and open water. This section covers how to teach the Open Water Course, Adventures in Diving, Rescue, and Divemaster courses. Confined water presentations are also part of this module.

PADI 703 - PADI Instructor Course III

The PADI Instructor Development Course (IDC) is the heart of the PADI Instructor training process. During the IDC, qualified PADI Divemasters or Assistant Instructors will apply their diving skills and knowledge to learn how to teach the PADI system in the classroom, confined water (pool) and open water. This section covers confined water presentations, a Discover SCUBA diving workshop and exams are given.

PADI 710 O2 Instructor

The *PADI Emergency Oxygen Provider* Specialty Instructor Training Course teaches the PADI Professional how to deliver this course, and how it can be integrated into other PADI courses, particularly the Rescue Diver program. The PADI Emergency Oxygen Provider Specialty Instructor Training Course takes less than 1 day, and is scheduled regularly at all venues. **Prerequisite: PADI 500 or PADI 700, PADI 340**

PADI 720 EFR Instructor

Gain experience in how to structure learning, the requirements of performance-based training and your role as the instructor in the learning environment for teaching CPR and first aid. You also learn how to motivate students, evaluate student knowledge, present course content effectively, become proficient in developing students' hands-on skills practice sessions, and are taught how to present an effective scenario-based learning experience. **Prerequisite: PADI 350**

PADI 730 – Instructor Exam

Two day PADI Open Water Instructor exam. Prerequisite: PADI 700

PADI 800 Deep Diver

The PADI Deep Diver course is designed to provide the diver with the necessary skills and knowledge for safe diving in the 60 – 130 feet range. Planning, problems, hazards, decompression, special equipment, buoyancy control, descent lines, emergency procedures, flying after diving, dive tables, and recompression chambers will be covered. Students will obtain the Deep Diver certification card and

then perform 16 additional dives using the knowledge and skills attained in the course. **Prerequisite: Instructor**

PADI 810 Underwater Photography

The Underwater Photography course is designed to provide the diver with the necessary skills and knowledge for taking underwater pictures with both a digital camera or a more conventional film camera. You will learn how to choose the right underwater camera system, applying the PADI SEA method for getting great shots quickly, and three primary principles for good underwater photos. Students will obtain the Underwater Photography certification card and then perform 16 additional dives using the knowledge and skills attained in the course. **Prerequisite: Instructor**

PADI 820 Enriched Air Diver

This course is designed to give the necessary skills and knowledge for diving with and teaching Enriched Air Nitrox. The student will develop a working knowledge of Enriched Air Nitrox, physiological aspects of breathing oxygen at elevated partial pressures, computation of equivalent air depths, use of dive tables, oxygen analysis, dive planning, and special equipment requirements. Enriched Air dives will be combined with the required dives for other specialties. **Prerequisite: Instructor**

PADI 830 Night Diver

The PADI Night Diver Specialty Instructor course is designed to acquaint the diver with the techniques and applications of Night diving and how to teach them to divers. Specifically, students will learn night dive planning, organization, procedures, techniques, potential problems, buoyancy control, entries, ext, and underwater navigation at night, and an introduction to the nocturnal aquatic life. **Prerequisite: Instructor**

PADI 840 Search and Recovery

The PADI Search and Recovery course is designed to acquaint the diver with the techniques and applications of search and recovery methods. Planning, organization, procedures, techniques, and problems and hazards associated with search and recovery diving will be covered. Students will learn how to prepare the Search and Recovery teaching tools and to present the material in addition to acquiring the required 20 dives. **Prerequisite: PADI Instructor**

PADI 850 Sidemount

The PADI Sidemount Diver course is designed to acquaint the diver with the techniques and applications of a different way to configure your cylinders. Planning, organization, procedures, techniques, and problems and hazards associated with sidemount diving will be covered. Students will learn how to prepare the Siemount teaching tools and to present the material in addition to acquiring the required 20 dives. **Prerequisite: PADI Instructor**

PADI 860 Underwater Hunter

The Underwater Hunter course is designed to provide the diver with the necessary skills and knowledge for hunting edible fish species by various methods such as pole spear and speargun. You will learn how to choose the right hunting tool, bagging the catch, protecting your catch in water, identifying edible species, following local laws and legislation, certification card and then perform 16 additional dives using the knowledge and skills attained in the course. **Prerequisite: Instructor**

PADI 870 Wreck Diver Specialty

The PADI Wreck Diver Instructor Specialty course is designed to provide the diver with the necessary skills and knowledge for safe wreck diving and teaching those skills to new divers. Planning, organization, procedures, techniques, problems and hazards associated with wreck diving, and limited penetration will be covered. Upon completion of the Wreck Diver Specialty, students are required to log 16 more wreck dives using the skills obtained in the Wreck specialty. **Prerequisite: Instructor**

Other courses available on request.

2013-2014 SCUBA Divemaster Program for Elite Professionals Calendar – WEEKDAY SCHEDULE – VA APPROVED – 320 hrs -

Calendar 1A, 2013-2014

Course Name	Hrs/Wk	Begin Date	End Date
100 Open Water	44	01/07/13	01/11/13

Term 2: 8/10/13-9/27/13

Term 3: 10/5/13-11/15/13

Term 4: 11/23/13-1/3/14

Term 5: 1/11/14-2/23/14

Calendar 12, 2013-2014

Term 1: 8/3/13-9/13/13

Term 2: 9/21/13-11/8/13

Term 3: 11/16/13-12/27/13

Term 4: 1/4/14-2/14/14

Term 5: 2/22/14-4/6/14

Term 1 Classes

100 Open Water, 200 Advanced Open Water, 330 Search and Recovery, 360
Event, 451 Divemaster Prep

Term 2 Classes

210 Enriched Air Nitrox, 220 Equipment Specialty, 300 Rescue Diver, 340 O2
Provider, 350 Neuro/EFR, 452 Divemaster Prep, 453, Divemaster Prep, 454
Divemaster Prep, 455 Divemaster Prep

Term 3 Classes

320 Wreck Diver, 500 Divemaster, 601 Apprentice Teaching, 602 Apprentice Teaching, 610 Compressor Operation, 650 SCUBA Cylinder Filling, 710 O2 Instructor, 720 EFR Instructor

Term 4 Classes

603 Apprentice Teaching, 604 Apprentice Teaching, 605 Apprentice Teaching, 620 Risk Management, 640 Group Management, 660 Sales

Term 5 Classes

606 Apprentice Teaching, 607 Apprentice Teaching, 630 Boat Handling/ Crewing, 701 Instructor Dev Course, 702 Instructor Dev Course, 703 Instructor Dev Course, 730 Instructor Exam

2013-2014 Master SCUBA Diver Trainer for Elite Professionals Calendar –VA Approved – 814 Hours

Calendar 1

4/19/13 to 6/28/13

814 Hours, 12.05 weeks

Calendar 2

6/28/13 to 9/5/13

814 Hours, 12.05 weeks

Calendar 3

4/19/13 to 9/5/13

814 Hours, 24.1 weeks

Courses Included in the Program

870 Wreck Diver Specialty Instructor

840 Search and Recovery Specialty Instructor

820 Digital Underwater Photo Specialty Instructor

810 Enriched Air Nitrox Specialty Instructor

860 Underwater Hunter Specialty Instructor

830 Night Diver Specialty Instructor

800 Deep Diver Specialty Instructor

604 Apprentice Teaching

VA Certificate Programs:

Dive Professional Certificates: a) SCUBA Divemaster for Elite Professionals; b) SCUBA Instructor for Elite Professionals; c) Master SCUBA Diver Trainer for Elite Professionals.

Students enrolling in these programs will satisfactorily complete the courses required leading to either a) PADI Divemaster; b) PADI Open Water SCUBA Instructor; or c) PADI Master SCUBA Diver Trainer certifications.

The Divemaster certification allows professionals to conduct the following:

1. Supervise both training and non-training related activities by planning, organizing and directing dives
2. Conduct the PADI Skin Diver course and PADI Discover Snorkeling program
3. Conduct the PADI Discover Local Diving experience
4. Conduct the PADI Scuba Review program

The Instructor certification allows professionals to conduct the following:

1. Supervise both training and non-training related activities by planning, organizing and directing dives
2. Conduct the PADI Skin Diver course and PADI Discover Snorkeling program
3. Conduct the PADI Discover Local Diving experience
4. Conduct the PADI Scuba Review program
5. Conduct the PADI Open Water SCUBA Diver Course.
6. Conduct the PADI Advanced Open Water SCUBA Diver Course
7. Conduct the PADI Rescue Diver Course
8. Conduct the PADI Divemaster Course.
9. Earn the PADI Digital Underwater Photographer Specialty Instructor rating to be able to teach the PADI Digital Underwater Photographer specialty.
10. Conduct the PADI Seal Team Skin Diver Specialist AquaMission
11. Teach Emergency First Response courses after successfully completing an Emergency First Response Instructor course.
12. Teach the suite of PADI courses from Open Water SCUBA Diver Course through to Divemaster.

The Master SCUBA Diver Trainer Instructor certification allows professionals to conduct the following:

1. Conduct the PADI Open Water SCUBA Diver Course.
2. Conduct the PADI Advanced Open Water SCUBA Diver Course
3. Conduct the PADI Rescue Diver Course
4. Conduct the PADI Divemaster Course
5. Conduct the PADI Search and Recover Course.
6. Conduct the PADI Wreck Diver Course.
7. Conduct the PADI Deep Diver Course
8. Conduct the PADI Underwater Photographer Course
9. Conduct the Night Diver Course
10. Conduct the Side-Mount Diver Course
11. Conduct the Underwater Hunter Course
12. Conduct the Enriched Air Diver Course

At the end of each "reporting period", student attendance (clock-hours/week) of less than 22 hours for any week, i.e. not maintaining full time, will be reported for the calendar week (s) in question, Sunday through Saturday. This change in training time affects the benefit amount and will result in a reduction and/or loss of benefits (tuition/fees, housing allowance).

SCUBA Divemaster Program for Elite Professionals

Producing highly qualified and employable professionals for the future.

Be a part of the fast growing recreational industry of SCUBA diving by learning how to teach others how to participate in this sport. This curriculum provides in-depth study of the professional aspects of SCUBA diving: its segments, business practices, tools, techniques, and applications are explored via demonstrations, assignments, and on-the-job internships.

Course work includes in-depth study of SCUBA diving techniques from beginner to Advanced, Search and Recovery, Rescue, Equipment specialties and divemaster.

Graduates will be thoroughly prepared to successfully perform the duties required by divemasters in the SCUBA diving industry and will receive international recognition for that training through the PADI (Professional Association of Dive Instructor) organization.

Graduates will receive a certificate from DDIC for successful completion of the program and will and divemaster paperwork will be submitted to PADI. PADI ultimately determines the divemaster number and certificate issuance for the student.

Total Cost: \$5,800.00, 320 clock hours, 4 months long.

Please see the following pages for a list of the courses approved for this program.

Some of the courses may be interchangeable for semester hour credit as indicated below. This is based on PADI ACE accreditation standards for those courses and equivalents are listed on page 95. PADI policies for credit hour determination is available at <http://www.padi.com/padi/en/footerlinks/collegecreditsace.aspx>

Curriculum Courses

Rolling admission and student works at their own pace within a year

These courses are fixed date for VA participants and may not be altered.

	Class	Lab	Hrs	Sem. Hrs	Work Exp.
PADI 100 Open Water SCUBA Diver	25	19	44	1	0
The PADI Open Water course is designed to provide the student with the basic knowledge and skills to safely gain limited experience in the diving environment under favorable conditions. We recommend that the newly qualified SCUBA diver limit diving to calm, shallow waters with an experienced buddy and engage in special diving activities only after qualifying through training for the particular activity. Prerequisite: Swim test					
PADI 200 Advanced SCUBA Diver	12	13	25	1	0
The PADI Advanced Open Water Diver course is designed to enhance the experience, skill and knowledge of the diver for practical application in the diving environment no deeper than 100 feet. This course is a prerequisite for the Rescue Diver, Dive Master and Master Diver courses. Prerequisite: PADI 100					
PADI 210 Enriched Air Diver	11	0	11	1	0
This course is designed to give the necessary skills and knowledge for diving with Enriched Air Nitrox. The course consists of a minimum of four hours of lectures and classroom exercises. The student will develop a working knowledge of Enriched Air Nitrox, physiological aspects of breathing oxygen at elevated partial pressures, computation of equivalent air depths, use of dive tables, oxygen analysis, dive planning, and special equipment requirements. Prerequisite: PADI 100					
PADI 220 Equipment Specialty	11	0	11	1	0
The PADI Equipment Specialist course is designed to be an introduction to new types of equipment and to familiarize divers with the operation and maintenance of equipment. Prerequisite: PADI 100					
PADI 300 Rescue Diver	10	15	25	1	0
The PADI Rescue Diver course is designed to develop the necessary knowledge and skills for individuals to effectively perform diver rescues and assists, manage diving accident situations, render proper first aid and qualify for PADI Divemaster training. Prerequisite: PADI 200, PADI 350					
PADI 310 Deep Diver	8	17	25	1	0
The PADI Deep Diver course is designed to provide the diver with the necessary skills and knowledge for safe diving in the 60 – 130 feet range. Planning, problems, hazards, decompression, special equipment, buoyancy control, descent lines, emergency procedures, flying after diving, dive tables, and recompression chambers will be covered. Prerequisite: PADI 200					

	Class	Lab	Hrs	Clock Hrs	Sem. Hrs	Work Exp.
PADI 320 Wreck Diver	8	17	25	1		0
The PADI Wreck Diver course is designed to provide the diver with the necessary skills and knowledge for safe wreck diving. Planning, organization, procedures, techniques, problems and hazards associated with wreck diving, and limited penetration will be covered. Prerequisite: PADI 200						
PADI 330 Search and Recovery	10	15	25	1		0
The PADI Search and Recovery course is designed to acquaint the diver with the techniques and applications of search and recovery methods. Planning, organization, procedures, techniques, and problems and hazards associated with search and recovery diving will be covered. Prerequisite: PADI 200						
PADI 340 PADI Oxygen Provider	11	0	11	1		0
The PADI Oxygen Provider course is designed to teach you how to recognize diving illnesses treatable by emergency oxygen, properly setup oxygen equipment, and administer emergency oxygen. Prerequisite: None						
	11	0	11	1		0
PADI 350 On-site Neuro, Emergency First Responder and First Aid						
The PADI Emergency First Responder and First Aid course is designed to teach BLS (Basic Life Support) CPR and rescue breathing at the layperson level, AED (automated external defibrillator) use (optional), preventing and caring for shock, spinal injury management, use of barriers to reduce disease transmission risk, and basic first aid and first aid kit considerations Prerequisite: None						
	11	11	22	1		0
PADI 360 Event Management						
Learn the basics of designing a public outreach event designed around SCUBA diving. Course includes the basic design, advertising, set-up, and administration of the event. Focus on liability issues associated with the SCUBA diving event and engaging the public. Prerequisite: None						
PADI 451 Divemaster Prep I	11	11	22	0		0
The Dive Master Prep course is conducted prior to the enrollment in the PADI 500 Divemaster Course. The individual taking this course has a high level of personal diving skill, is increasing their knowledge towards instructor level for diving theory, works towards obtaining significant training in assisting instructors during training activities and wants to assume a role of responsibility for the welfare of other divers in his/her charge. Specifically, participants learn how to teach all aspects of the Open Water Course Day One. Prerequisite: 18 years old

PADI 452 Divemaster Prep II

11	11	22	0	0
----	----	----	---	---

The Dive Master Prep course is conducted prior to the enrollment in the PADI 500 Divemaster Course. The individual taking this course has a high level of personal diving skill, is increasing their knowledge towards instructor level for diving theory, works towards obtaining significant training in assisting instructors during training activities and wants to assume a role of responsibility for the welfare of other divers in his/her charge. Specifically, participants learn how to teach all aspects of the Open Water Course Day Two Classroom work.

Prerequisite: 18 years old

PADI 453 Divemaster Prep III

11	11	22	0	0
----	----	----	---	---

The Dive Master Prep course is conducted prior to the enrollment in the PADI 500 Divemaster Course. The individual taking this course has a high level of personal diving skill, is increasing their knowledge towards instructor level for diving theory, works towards obtaining significant training in assisting instructors during training activities and wants to assume a role of responsibility for the welfare of other divers in his/her charge. Specifically, participants learn how to teach all aspects of the Open Water Course Day Two Classroom poolwork.

PADI 454 Divemaster Prep IV

11	11	22	0	0
----	----	----	---	---

The Dive Master Prep course is conducted prior to the enrollment in the PADI 500 Divemaster Course. The individual taking this course has a high level of personal diving skill, is increasing their knowledge towards instructor level for diving theory, works towards obtaining significant training in assisting instructors during training activities and wants to assume a role of responsibility for the welfare of other divers in his/her charge. Specifically, participants learn how to teach all aspects of the Open Water Course Day Three Classroom, poolwork, and open water.

PADI 455 Divemaster Prep V

11	11	22	0	0
----	----	----	---	---

The Dive Master Prep course is conducted prior to the enrollment in the PADI 500 Divemaster Course. The individual taking this course has a high level of personal diving skill, is increasing their knowledge towards instructor level for diving theory, works towards obtaining significant training in assisting instructors during training activities and wants to assume a role of responsibility for the welfare of other divers in his/her charge. Specifically, participants learn how to teach all aspects of the Open Water Course Day Four Classroom and open water.

PADI 500 Divemaster

4	18	22	2	0
---	----	----	---	---

The Dive Master course is conducted on an individual basis and denotes an individual who has a high level of personal diving skill, has instructor-level knowledge of diving theory, has had significant training in assisting instructors during training activities and is able to assume a role of responsibility for the welfare of other divers in his/her charge. **Prerequisite: PADI 300, 40 dives, 18 years old**

SCUBA Instructor Program for Elite Professionals

Producing highly qualified and employable professionals for the future.

Be a part of the fast growing recreational industry of SCUBA diving by learning how to teach others how to participate in this sport. This curriculum provides in-depth study of the professional aspects of SCUBA diving: its segments, business practices, tools, techniques, and applications are explored via demonstrations, assignments, and on-the-job internships.

Course work includes in-depth study of SCUBA diving techniques from beginner to Advanced, Search and Recovery, Rescue, Divemaster, Equipment specialties, group management, planning, and business practices.

Graduates will be thoroughly prepared to successfully perform the duties required by instructors in the SCUBA diving industry and will receive international recognition for that training through the PADI (Professional Association of Dive Instructor) organization.

Graduates will receive a certificate from DDIC for successful completion of the program and will then be able to take the PADI administered Instructor Exam (IE). PADI will ultimately grant the SCUBA Instructor Certificate.

Total Cost: \$18,900.00 for 716 hours, books included past PADI 451 Divemaster Prep I, 9 months long

Please see the following pages for a list of the courses approved for this program.

Some of the courses may be interchangeable for semester hour credit as indicated below. This is based on PADI ACE accreditation standards for those courses and equivalents are listed on page 86. PADI policies for credit hour determination is available at <http://www.padi.com/padi/en/footerlinks/collegecreditsace.aspx>

Curriculum Courses

Rolling admission and student works at their own pace within a year. Semester equivalents are based on PADI ACE credit

PADI 100 Open Water SCUBA Diver	25	19	44	1	0
The PADI Open Water course is designed to provide the student with the basic knowledge and skills to safely gain limited experience in the diving environment under favorable conditions. We recommend that the newly qualified SCUBA diver limit diving to calm, shallow waters with an experienced buddy and engage in special diving activities only after qualifying through training for the particular activity. Prerequisite: Swim test					
PADI 200 Advanced SCUBA Diver	12	13	25	1	0
The PADI Advanced Open Water Diver course is designed to enhance the experience, skill and knowledge of the diver for practical application in the diving environment no deeper than 100 feet. This course is a prerequisite for the Rescue Diver, Dive Master and Master Diver courses. Prerequisite: PADI 100					
PADI 210 Enriched Air Diver	11	0	11	1	0
This course is designed to give the necessary skills and knowledge for diving with Enriched Air Nitrox. The course consists of a minimum of four hours of lectures and classroom exercises. The student will develop a working knowledge of Enriched Air Nitrox, physiological aspects of breathing oxygen at elevated partial pressures, computation of equivalent air depths, use of dive tables, oxygen analysis, dive planning, and special equipment requirements. Prerequisite: PADI 100					
PADI 220 Equipment Specialty	11	0	11	1	0
The PADI Equipment Specialist course is designed to be an introduction to new types of equipment and to familiarize divers with the operation and maintenance of equipment. Prerequisite: PADI 100					
PADI 300 Rescue Diver	10	15	25	1	0
The PADI Rescue Diver course is designed to develop the necessary knowledge and skills for individuals to effectively perform diver rescues and assists, manage diving accident situations, render proper first aid and qualify for PADI Divemaster training. Prerequisite: PADI 200, PADI 350					
PADI 310 Deep Diver	8	17	25	1	0
The PADI Deep Diver course is designed to provide the diver with the necessary skills and knowledge for safe diving in the 60 – 130 feet range. Planning, problems, hazards, decompression, special equipment, buoyancy control, descent lines, emergency procedures, flying after diving, dive tables, and recompression chambers will be covered. Prerequisite: PADI 200					

	Class	Lab	Hrs	Clock Hrs	Sem. Hrs	Work Exp.
PADI 320 Wreck Diver	8	17	25	1		0
The PADI Wreck Diver course is designed to provide the diver with the necessary skills and knowledge for safe wreck diving. Planning, organization, procedures, techniques, problems and hazards associated with wreck diving, and limited penetration will be covered. Prerequisite: PADI 200						
PADI 330 Search and Recovery	10	15	25	1		0
The PADI Search and Recovery course is designed to acquaint the diver with the techniques and applications of search and recovery methods. Planning, organization, procedures, techniques, and problems and hazards associated with search and recovery diving will be covered. Prerequisite: PADI 200						
PADI 340 PADI Oxygen Provider	11	0	11	1		0
The PADI Oxygen Provider course is designed to teach you how to recognize diving illnesses treatable by emergency oxygen, properly setup oxygen equipment, and administer emergency oxygen. Prerequisite: None						
	11	0	11	1		0
PADI 350 On-site Neuro, Emergency First Responder and First Aid						
The PADI Emergency First Responder and First Aid course is designed to teach BLS (Basic Life Support) CPR and rescue breathing at the layperson level, AED (automated external defibrillator) use (optional), preventing and caring for shock, spinal injury management, use of barriers to reduce disease transmission risk, and basic first aid and first aid kit considerations Prerequisite: None						
	11	11	22	1		0
PADI 360 Event Management						
Learn the basics of designing a public outreach event designed around SCUBA diving. Course includes the basic design, advertising, set-up, and administration of the event. Focus on liability issues associated with the SCUBA diving event and engaging the public. Prerequisite: None						
PADI 451 Divemaster Prep I	11	11	22	0		0
The Dive Master Prep course is conducted prior to the enrollment in the PADI 500 Divemaster Course. The individual taking this course has a high level of personal diving skill, is increasing their knowledge towards instructor level for diving theory, works towards obtaining significant training in assisting instructors during training activities and wants to assume a role of responsibility for the welfare of other divers in his/her charge. Specifically, participants learn how to teach all aspects of the Open Water Course Day One. Prerequisite: 18 years old

11 11 22 0 0

The Dive Master Prep course is conducted prior to the enrollment in the PADI 500 Divemaster Course. The individual taking this course has a high level of personal diving skill, is increasing their knowledge towards instructor level for diving theory, works towards obtaining significant training in assisting instructors during training activities and wants to assume a role of responsibility for the welfare of other divers in his/her charge. Specifically, participants learn how to teach all aspects of the Open Water Course Day Four Classroom and open water. **Prerequisite: 18 years old**

PADI 500 Divemaster

4 18 22 2 0

The Dive Master course is conducted on an individual basis and denotes an individual who has a high level of personal diving skill, has instructor-level knowledge of diving theory, has had significant training in assisting instructors during training activities and is able to assume a role of responsibility for the welfare of other divers in his/her charge. **Prerequisite: PADI 300, 40 dives, 18 years old**

	Class	Lab	Hrs	Sem. Hrs	Work Exp.
PADI 610 Compressor Operation	11	0	11	0	0
Learn the basics of running a compressor. Includes a general knowledge on how to start up and shut down the machine, check for oil and leaks, and preventative maintenance, such as blow downs. Prerequisite: None					
PADI 620 Risk Management and the Paper Trail	11	0	11	0	0
Learn a proficient method of record keeping to ensure proper tracking of training and experience. Includes a round table discussion of diving safety issues and proper responses. Prerequisite: PADI 500 or PADI 700					
PADI 630 Boat Handling and Crewing	8	14	22	0	0
Practical seamanship on a dive boat that provides regular dive charters. Learn how assist and guide inexperienced and experienced divers. Includes anchoring and evaluating dive conditions including currents and visibility affecting divers and stressing diver safety. Prerequisite: PADI 500					
PADI 640 Group Leadership	11	0	11	0	0
Organization, planning and accountability for dive travel. Includes learning how to interface well with store staff and boat crews. Procedures to facilitate an enjoyable time for the dive travel participants. Prerequisite: None					
PADI 650 SCUBA Cylinder Filling	11	0	11	0	0
Learn the basics of filling SCUBA cylinders from a multi-bank fill station. Includes hooking the cylinder up to the filling station, verifying tank pressure, checking cylinder for current VIP and Hydro status. Prerequisite: None					
	22	0	22	0	0
PADI 660 How to sell SCUBA Equipment – Retail Sales					
Selling the basic SCUBA equipment to divers, includes salesman etiquette, equipment features and benefits presentation, closing the sale, and countering objections. Prerequisite: Swim test					
PADI 601 Apprentice Teaching I	0	22	0	0	22
The Apprentice Teaching course is conducted prior to the enrollment in the IDC and lets participants hone their teaching abilities. Participants work directly with instructors and teach or aid with teaching the classroom section of the Open Water Day One. Participants will lead lectures, present skills, and conducting Open Water dives. Prerequisite: PADI 500

PADI 607 Apprentice Teaching VII	0	22	0	0	22
The Apprentice Teaching course is conducted prior to the enrollment in the IDC and lets participants hone their teaching abilities. Participants work directly with instructors and teach or aid with teaching the classroom and open water sections of Advanced Open Water. Participants will lead lectures, present skills, and conducting Open Water dives. Prerequisite: PADI 500					
PADI 701-PADI Instructor Course I	11	10	21	0	0
The PADI Instructor Development Course (IDC) is the heart of the PADI Instructor training process. During the IDC, qualified PADI Divemasters or Assistant Instructors will apply their diving skills and knowledge to learn how to teach the PADI system in the classroom, confined water (pool) and open water. This section covers the basics of teaching in confined water, general PADI standards, risk management, and basic dive theory.					
PADI 702-PADI Instructor Course II	10	11	21	0	0
The PADI Instructor Development Course (IDC) is the heart of the PADI Instructor training process. During the IDC, qualified PADI Divemasters or Assistant Instructors will apply their diving skills and knowledge to learn how to teach the PADI system in the classroom, confined water (pool) and open water. This section covers how to teach the Open Water Course, Adventures in Diving, Rescue, and Divemaster courses. Confined water presentations are also part of this module.					
PADI 703-PADI Instructor Course III	10	11	21	0	0
The PADI Instructor Development Course (IDC) is the heart of the PADI Instructor training process. During the IDC, qualified PADI Divemasters or Assistant Instructors will apply their diving skills and knowledge to learn how to teach the PADI system in the classroom, confined water (pool) and open water. This section covers confined water presentations, a Discover SCUBA diving workshop and exams are given.					
PADI 710 O2 Instructor	11	0	11	2	0
The <i>PADI Emergency Oxygen Provider</i> Specialty Instructor Training Course teaches the PADI Professional how to deliver this course, and how it can be integrated into other PADI courses, particularly the Rescue Diver program. The PADI Emergency Oxygen Provider Specialty Instructor Training Course takes less than 1 day, and is scheduled regularly at all venues. Prerequisite: PADI 500 or PADI 700, PADI 340					
PADI 720 EFR Instructor	11	0	11	2	0
Gain experience in how to structure learning, the requirements of performance-based training and your role as the instructor in the learning environment for teaching CPR and first aid. You also learn how to motivate students, evaluate student knowledge, present course content effectively, become proficient in					

developing students' hands-on skills practice sessions, and are taught how to present an effective scenario-based learning experience. **Prerequisite: PADI 350**

PADI 730 Instructor Exam

22 0 22 0 0

Two day Instructor exam covering all aspects of SCUBA instruction. Successful completion results in PADI Instructor licensing. **Prerequisite: PADI 700**

Master SCUBA Diver Trainer Instructor Program for Elite Professionals

Producing highly qualified and employable professionals with advanced teaching ratings and certifications.

Be a part of the fast growing recreational industry of SCUBA diving by learning how to teach others how to participate in this sport. This curriculum takes an entry-level Open Water SCUBA instructor (OWSI) and provides him/her with the experience, training, and knowledge to teach advanced SCUBA specialty courses, by becoming a Master SCUBA Diver Trainer (MSDT).

Course work includes in-depth study of specialty SCUBA courses, as well as diving experience and teaching opportunities. In order to achieve the MSDT rating, an open water instructor must meet the following PADI criteria:

1. Certify 25 open water students
2. Choose 7 specialty courses in which they have the diver specialty and have logged a minimum 20 dives for that specialty. If students already have the specialty, they do not need to participate in the class, however they are required to obtain the extra 16 dives to complete the minimum requirements.

Graduates will be thoroughly prepared to successfully perform the duties required by Master SCUBA diving trainers (MSDT) in the SCUBA diving industry and will receive international recognition for that training through the PADI (Professional Association of Dive Instructor) organization.

At the end of each “reporting period”, student attendance (clock-hours/week) of less than 22 hours for any week, i.e. not maintaining full time, will be reported for the calendar week (s) in question, Sunday through Saturday. This change in training time affects the benefit amount and will result in a reduction and/or loss of benefits (tuition/fees, housing allowance).

Total Cost of the Program: **\$18,500.00** Includes tuition and fees for 814 hours

Please see the following pages for a list of the courses approved for this program.

Curriculum Courses

Rolling admission and student works at their own pace within a year. Students may choose 7 specialties from the list available.

These courses are fixed date for VA participants and may not be altered.

Course Number	Course Name	Class	Lab	Clock Hours	Sem Hrs	Wk. Exp
PADI 800	Deep Diver	25	107	132	1	
PADI 810	Underwater Photography	25	107	132	1	
PADI 820	Enriched Air Nitrox	11	121	132	1	
PADI 830	Night Diver	4	18	22	1	
PADI 840	Search and Recovery	25	107	132	1	
PADI 850	Side-mount Diver	25	107	132	1	
PADI 860	Underwater Hunter	25	107	132	1	
PADI 870	Wreck Diver	25	107	132	1	

			Clock	Sem.	Work
	Class	Lab	Hrs	Hrs	Exp.
PADI 800 Deep Diver	25	107	132	1	0
The PADI Deep Diver course is designed to provide the diver with the necessary skills and knowledge for safe diving in the 60 – 130 feet range. Planning, problems, hazards, decompression, special equipment, buoyancy control, descent lines, emergency procedures, flying after diving, dive tables, and recompression chambers will be covered. Students will obtain the Deep Diver certification card and then perform 16 additional dives using the knowledge and skills attained in the course. Prerequisite: Instructor					
PADI 810 Underwater Photography	25	107	132	1	0
The Underwater Photography course is designed to provide the diver with the necessary skills and knowledge for taking underwater pictures with both a digital camera or a more conventional film camera. You will learn how to choose the right underwater camera system, applying the PADI SEA method for getting great shots quickly, and three primary principles for good underwater photos. Students will obtain the Underwater Photography certification card and then perform 16 additional dives using the knowledge and skills attained in the course. Prerequisite: Instructor					
PADI 820 Enriched Air Diver	11	121	132	1	0
This course is designed to give the necessary skills and knowledge for diving with and teaching Enriched Air Nitrox. The student will develop a working knowledge of Enriched Air Nitrox, physiological aspects of breathing oxygen at elevated partial pressures, computation of equivalent air depths, use of dive tables, oxygen analysis, dive planning, and special equipment requirements. Enriched Air dives will be combined with the required dives for other specialties. Prerequisite: Instructor					
PADI 830 Night Diver	4	18	22	1	0
The PADI Night Diver Specialty Instructor course is designed to acquaint the diver with the techniques and applications of Night diving and how to teach them to divers. Specifically, students will learn night dive planning, organization, procedures, techniques, potential problems, buoyancy control, entries, ext, and underwater navigation at night, and an introduction to the nocturnal aquatic life. Prerequisite: Instructor					
PADI 840 Search and Recovery	25	107	132	1	0
The PADI Search and Recovery course is designed to acquaint the diver with the techniques and applications of search and recovery methods. Planning, organization, procedures, techniques, and problems and hazards associated with search and recovery diving will be covered. Students will learn how to prepare the Search and Recovery teaching tools and to present the material in addition to acquiring the required 20 dives. Prerequisite: PADI Instructor					
PADI 850 Sidemount	25	107	132	1	0
The PADI Sidemount Diver course is designed to acquaint the diver with the techniques and applications of a different way to configure your cylinders. Planning, organization, procedures, techniques, and problems and hazards associated with sidemount diving will be covered. Students will learn how to prepare the Sidemount					

teaching tools and to present the material in addition to acquiring the required 20 dives. **Prerequisite: PADI Instructor**

PADI 860 Underwater Hunter 25 107 132 1 0

The Underwater Hunter course is designed to provide the diver with the necessary skills and knowledge for hunting edible fish species by various methods such as pole spear and speargun. You will learn how to choose the right hunting tool, bagging the catch, protecting your catch in water, identifying edible species, following local laws and legislation, certification card and then perform 16 additional dives using the knowledge and skills attained in the course. **Prerequisite: Instructor**

PADI 870 Wreck Diver Specialty 25 107 132 1 0

The PADI Wreck Diver Instructor Specialty course is designed to provide the diver with the necessary skills and knowledge for safe wreck diving and teaching those skills to new divers. Planning, organization, procedures, techniques, problems and hazards associated with wreck diving, and limited penetration will be covered. Upon completion of the Wreck Diver Specialty, students are required to log 16 more wreck dives using the skills obtained in the Wreck specialty. **Prerequisite: Instructor**
